Dear Service Club:

Received your friendly letter today and was real glad to hear that the school was continuing its good work. There certainly isn't anything a man away from home likes more than a letter and a copy of the Bryant Alumni Bulletin. Many thanks for sending me a copy.

I have been commissioned a Second Lieutenant in the U.S. Army and am now attending an Ordinance Automotive School in Omaha, Nebraska. This course covers Motor Maintenance and Operations of all vehicles used today by the Army. I expect to leave this school about the first of February to be sent to an outfit which is in the field.

This city is one of the coldest I have ever  
been in as the temperature is between  $10^{\circ}$   
and  $25^{\circ}$  above zero all the time. Yesterday  
we had a good snow storm and now  
have about 8 inches of snow.

Thank you again for your letter and  
Bulletin.

Sincerely
